

Boroughs 2017 Shapefile

Description: An ESRI Shapefile for use in GIS software that contains boundary data from the 2017 Alaska Department of Labor and Workforce Development population estimates at the borough/census area level. The layer includes all Boroughs as well as Census Areas that are within the Unorganized Borough. Each geographic unit is identified using Federal Information Processing Standards (FIPS) numbers.

Coordinate System: North American Datum 1983 Alaska Albers

Fields:

1. FID – Feature identify number imbedded in the Shapefile
2. Shape – Shape identifier
3. Borough – 3 digit FIPS code of the borough/census area
4. Name – Borough/Census Area Name
5. EconRegion – Alaska Department of Labor and Workforce Development Economic Region that the Borough/Census Area is in

Created by: Alaska Department of Labor and Workforce Development, Research and Analysis Section

Source – 2016 US Census Tiger Shapefiles. (No boundary changes for the vintage 2017 population estimates.)
