Note: These data exclude self-employed workers, fishers, domestics, and unpaid family workers. Government includes employees of public school systems and the University of Alaska.

Beginning January 2001, wage and salary employment estimates were published under a new classification system. The Standard Industrial Classification system (SIC) has been replaced by the North American Industry Classification System (NAICS). Data prior to 2001 are comparable only at the Total Nonfarm and Government levels.

As of January 2001, certain federally-recognized tribal entities were moved to Local Government, which created a series break for Total Government and Local Government. Please see the [April 2002 Alaska Economic Trends publication](#) for a detailed explanation.
