## About This Report

AS 23.20.110 allows for the release of information showing the number of resident and nonresident workers by firm for those Alaska employers who had 20 or more workers during the year.

Residency is calculated by matching workers reported by Alaska employers with the two most recent Permanent Fund Dividend files (2006 and 2007). Workers shown include all workers employed at any time during the year with that employer. If a worker applied for a Permanent Fund Dividend in 2007 or received a Permanent Fund Dividend in 2006, they are considered residents for purposes of this report. For complete methodological information, please see "Nonresidents Working in Alaska – 2006," available from the Alaska Department of Labor and Workforce Development, Research and Analysis Section at <http://146.63.75.50/research/reshire/nonres.pdf>.

**Resident and Nonresident Workers by Employer and Industry - Alaska 2006**  
**Employers with 20 or More Workers**
