Residency Analysis of Alaska's Workers by Firm-1997

Prepared by:

Alaska Department of Labor Research and Analysis

January 1999

About This Report

AS 23.20.110 allows for the release of information showing the number of resident and nonresident workers by firm for those Alaska employers who had 20 or more workers during the year.

Residency is calculated by matching workers reported by Alaska employers with the two most recent Permanent Fund Dividend files (1997 and 1998). If a worker applied for a Permanent Fund Dividend in 1998 or received a Permanent Fund Dividend in 1997 they are considered residents for purposes of this report. For complete methodological information see "Nonresidents Working in Alaska-1997" available from the Alaska Department of Labor, Research and Analysis.
