About This Report

AS 23.20.110 allows for the release of information showing the number of resident and nonresident workers by firm for those Alaska employers who had 20 or more workers during the year.

Residency is calculated by matching workers reported by Alaska employers with the two most recent Permanent Fund Dividend files (2000 and 2001). Workers shown include all workers employed at any time during the year with that employer. If a worker applied for a Permanent Fund Dividend in 2001 or received a Permanent Fund Dividend in 2000 they are considered residents for purposes of this report. For complete methodological information see "Nonresidents Working in Alaska-2000" available from the Alaska Department of Labor and Workforce Development, Research and Analysis.
